

Sean Del Rosario

Senior Technical Recruiter | Cloud, Software, Data, Infrastructure, Security, and Leadership Hiring

LinkedIn: [linkedin.com/in/sean-del-rosario](https://www.linkedin.com/in/sean-del-rosario) | GitHub: github.com/githubsean07 | Remote recruiting across US, LATAM, and APAC

PROFILE

Senior Technical Recruiter with 7+ years of end-to-end recruiting experience across agency, staffing, consulting, and in-house environments. Experienced in translating technical requirements into sourcing strategy, managing candidate pipelines, partnering with hiring managers, and closing roles across software engineering, cloud, data, DevOps, infrastructure, security, databases, Power Platform, and technical leadership. Strong user of ATS, sourcing, AI-assisted outreach, interview intelligence, VMS, and EOR tools.

CORE SKILLS

End-to-end technical recruiting	Hiring manager intake	Boolean and X-Ray sourcing	AI-assisted sourcing
Candidate screening	Offer management	ATS and pipeline hygiene	Global hiring support
EOR coordination	VMS workflows	Candidate experience	Recruiting analytics

EXPERIENCE

Recruitment Specialist, Backblaze

Dec 2025 - Present | Remote | California, United States

- Manage end-to-end recruitment across technical and non-technical roles based on internal business needs, currently supporting a 10-15 role requisition load across multiple teams.
- Own recruiting workflow from job posting, sourcing, screening, interview coordination, hiring manager calibration, offer support, and role closure.
- Partner with teams hiring across the US, LATAM, and APAC while supporting domestic and international hiring processes and candidate experience.
- Participated in the company pilot for international hiring operations, helping build and execute EOR workflows through Deel and Rippling for candidate profiles, contracts, onboarding, and employment support.
- Address candidate and employee inquiries related to benefits, onboarding, employment processes, and cross-border hiring documentation.

Senior Technical Recruiter, 3Cloud

Jul 2024 - Nov 2025 | Remote | Makati, Philippines

- Owned full-cycle technical recruiting for a Microsoft-stack consulting organization, supporting Azure, .NET, data, DevOps, infrastructure, security, database, Power Platform, and leadership hiring.
- Translated Microsoft cloud consulting requirements into sourcing strategy, screening criteria, and hiring manager alignment across niche and high-demand technical skill sets.
- Helped establish new hiring lanes for infrastructure, security, database, and specialized cloud consulting teams while maintaining strong pipeline visibility and candidate experience.
- Consistently hired 3-4 candidates per month, increasing to 5-6 monthly hires during peak hiring periods.
- Used Greenhouse, LinkedIn Recruiter, Gem, BrightHire, and related recruiting tools for ATS management, sourcing, sequencing, analytics, interview operations, and hiring team collaboration.

Senior Technical Recruiter / Desk Assistant, CornerStone Staffing

Aug 2023 - Jul 2024 | Remote | Dallas, Texas

- Partnered with account executives and hiring teams from intake through offer close for contract and full-time technology staffing searches.
- Recruited across project management, business analysis, backend engineering, frontend engineering, cloud, full stack, mobile, database, DevOps, Kubernetes, architecture, and solutions engineering roles.
- Expanded searches into hardware, technical support, server, network, mobile, Wi-Fi layers, physical engineering, AS400, COBOL, CAD, and other specialized technical roles.
- Managed sourcing, screening, submittals, interview coordination, hiring manager collaboration, VMS activity, and post-submittal follow-up while averaging 2 hires per month.
- Used Salesforce, LinkedIn Recruiter, Dice, Monster, SeekOut, Erecruit, Compass, JobScience, and AI-assisted sourcing methods while managing Fieldglass, Vector, and Beeline VMS workflows.
- Generated approximately 200K USD in quarterly revenue through a mix of full-time placements with 20% fees and contractor placements with hourly bill rates; also acted as a desk reliever during periods of increased workload.

Senior Technical Recruiter / Recruitment Specialist, Eliassen Group

Sep 2018 - Aug 2023 | Remote | US clients

- Started by hiring project managers and business analysts with Trello, Jira, Scrum, Waterfall, and Kanban experience, consistently making 1-2 hires per month.
- Expanded scope into backend engineering roles using Java, Python, C#, and C++; frontend roles using JavaScript, Angular, React, and TypeScript; and cloud engineering roles focused on AWS and Azure, consistently making 2-3 hires per month.
- Promoted from Recruitment Specialist to Senior Technical Recruiter and assigned directly to the North Carolina team, supporting roles across the US while meeting NC office delivery metrics.
- Handled full stack, mobile development, Swift, Kotlin, Android, database, DevOps, Kubernetes, architecture, solutions engineering, and leadership roles across consulting and enterprise client environments.
- Managed day-to-day recruiting activities including job posting, sourcing, screening, profile submittals, hiring manager collaboration, offer support, and post-start maintenance calls to strengthen candidate and client relationships.
- Mentored new recruiters on technical recruiting foundations, role calibration, tech stacks, sourcing strategy, and candidate evaluation across engineering and IT roles.
- Used Erecruit and Compass for ATS workflows and Dice, Monster, LinkedIn Recruiter, and JobScience for sourcing; created up to a 7x spread on contractor placements, equivalent to approximately 150-200 USD per hour in annualized revenue per consultant.
